

This is the header and footer which will be present on each page

community posts + guides & reviews are menus that drop down upon hovering upon them

Hyperlinks in the footer open a new tab with the selected social media platform.

Only "official news", "Costs of Hell", "Join Our team", "about us" and clicking the logo (all in the header) leads you to different web pages which will be present in the other storyboards. Everything else leads to the "under construction page"

This is where the page's content will go, other story boards will just have the page content excluding header & footer
